Panel of Expert Speakers

Dr. Yonglong Lu

Chair Professor, Xiamen University
Fellow, The World Academy of Sciences (TWAS)
Foreign Member, Academia Europaea (AE)
Foreign Member, Russian Academy of Sciences
Research interests include: Sustainability ecology, environmental geoscience and management, environmental ecology

Dr. Wenqing Liu

Researcher, Hefei Institutes of Physical Science, Chinese Academy of Sciences / Institute of Environment Hefei Comprehensive National Science Center
Academician, Chinese Academy of Engineering
Research interests include: Environment monitoring technology research and its related application

Dr. Boqiang Qin

Researcher, Nanjing Institute of Geography & Limnology, Chinese Academy of Sciences
Research interests include: Water environment and ecology

Dr. Xingcan Zheng

Professor of Engineering, North China Municipal Engineering Design and Research Institute Co.,Ltd.
Research interest include: Municipal water supply and drainage

Dr. Xin Yu

Professor, Xiamen University
Research interest include: Drinking water treatment technologies, formation and control of harmful algal bloom, characterization of novel and emerging microbial contaminants in water treatment systems

Dr. Nengwang Chen

Professor, Xiamen University
Research interest include: Environmental biogeochemistry, environmental processes and effects, aquatic environmental monitoring and management, environmental planning
