POWERING WHAT BUILDS TOMORROW

**Buildings don't come to life on their own.
They are powered by the ideas, engineering
and technologies working behind the scenes.**

ENGINEER & MARVEX 2026 brings together the forces shaping the future of the built environment, from smarter engineering infrastructure and advanced HVAC&R solutions to the innovations redefining efficiency, sustainability and performance.

This is where the industry comes together to see what's next, and build what comes after.

Engineering has always been about people – transforming ideas into solutions, addressing complex challenges, creating safer and more resilient communities, and improving lives through the systems, technologies and infrastructure that shape our world.

The spirit of collaboration remains central to ENGINEER and the IEM Convention, bringing together engineers, industry leaders, policymakers, academics, technology providers and the next generation of engineering professionals to exchange knowledge and discover emerging technologies, strengthen professional networks and explore new opportunities that will shape the future of our profession.

“ENGINEER 2026 reflects IEM’s continuing commitment to lifelong learning, professional growth and engineering solutions that deliver meaningful impact to industry, society and the nation, while advancing innovation, sustainability and collaboration through engineering.”

Ir. Yau Chau Fong
IEM President

The HVAC&R industry plays an essential role in our daily lives, creating the comfortable, healthy and energy-efficient environments that enable people to live, work and thrive. Today, our industry undergoes a remarkable transformation driven by energy efficiency, sustainability, digitalisation and low-carbon technologies.

MARVEX has established itself as the region's premier HVAC&R exhibition and a valuable platform where manufacturers, suppliers, consultants, contractors, engineers and building professionals connect, share ideas and explore the latest technologies and market trends.

More than an exhibition, MARVEX reflects the spirit of collaboration and innovation to drive our industry forward, offering opportunities to discover new technologies, expand professional networks and explore new business opportunities as we shape a smarter, greener and more sustainable future together.

Mr. Gan Chok Ser
MACRA President

Every edition of ENGINEER & MARVEX reminds us of one simple thing — progress begins when people come together.

Over the past five years, this platform has grown into an annual gathering for the engineering and HVAC&R communities, serving as a meeting point for industry professionals to exchange knowledge, discover new possibilities, explore innovative solutions and build meaningful partnerships that drive the industry forward.

Bringing together conference and exhibition in one connected platform, ENGINEER & MARVEX creates opportunities beyond business — from showcasing the latest technologies and innovations to opening doors for collaboration, investment and growth across the engineering and HVAC&R sectors.

Dato' Vincent Lim
C.I.S President

ENGINEER®			MARVEX®	
POWER SYSTEMS • High and Medium Voltage System & Technologies • Low-Voltage Electrical Distribution System & Technologies • Power Transmission and Distribution System & Equipments • Wire, Cable, Cabling and Electrical Supply System & Technologies			HVAC TECHNOLOGY • HVAC Equipment & Services (membranes, fittings, insulation, testing & control) • Air-Conditioning System & Equipment • Pump & Systems	
ENERGY TRANSITION SOLUTIONS • Renewable Energy Solution & Technologies • Battery Energy Storage System & Technologies • EV Infrastructure & Smart Grids			AIR FLOW, AIR QUALITY & VENTILATION • Air Flow, Air Filtration & Purification Ventilation System & Equipments • Indoor & Outdoor Air System & Equipments	
BUILDING SERVICES, SYSTEMS & TECHNOLOGIES • Elevator, Escalator, Passenger Conveyors Solution, System & Technologies • Digital Technologies, BIM, Robotics, Automation & System Integration			REFRIGERATION TECHNOLOGY • Cooling & Refrigeration System & Technologies	
SAFETY, SECURITY, FIRE PROTECTION SYSTEMS & EQUIPMENT • Fire Detection, Suppression & Alarm System & Technologies • Earthing, Lightning, and Surge Protection System & Technologies • Explosive Atmosphere Protection System & Equipments • CCTV & Integrated Security Solutions			BUILDING AUTOMATION SYSTEM & TECHNOLOGIES • Building Automation & System Integration Technologies • Measurement & Testing Control Technology	
TOOLS, EQUIPMENT & TESTING • Power Tools, Machinery, Materials & Parts • Testing, Measurement and Monitoring Solutions			PROFESSIONAL SERVICES & TRAINING • Training, Up-skilling & Certification	
DRIVE, PUMPS & VALVES • Drive & Motor Controls • Pump, Valve, Materials & Parts			DATA CENTRE INFRASTRUCTURES SYSTEMS & TECHNOLOGIES • Back-up Power Supply, Independent Power Generation, and Uninterruptible Power Supply (UPS) • Energy Efficiency, Sustainability & Green Data Centres • Raised Flooring & Environmental Controls • Lighting & Electrical Installation Systems • Cooling & Thermal Management Systems • Other Data Centre Infrastructure Solution & Technologies	

Co-located Exhibition:

POWERING ASIA'S DIGITAL BLACKBONE

Evolving from the successful 2nd edition of the Live Data Centre Showcase at ENGINEER and MARVEX, DCX Asia is a premier platform for you to source mission-critical electrical, mechanical, HVAC&R, and power systems directly from global infrastructure leaders.

Experience scalable, high-efficiency and resilient solutions in action - from precision cooling to fully integrated infrastructure systems.

Position yourself at the heart of the region's digital transformation and source the technologies required to build the future of high-performance, sustainable data centres.

EXHIBIT PROFILES

- Back-up Power Supply, Independent Power Generation, and Uninterruptible Power Supply (UPS)

- Energy Efficiency, Sustainability & Green Data Centres

- Raised Flooring & Environmental Controls

- Cooling & Thermal Management Systems

- Lighting & Electrical Installation Systems

- Other Data Centre Infrastructure Solution & Technologies

LIVE SHOWCASE

DATA CENTRE INFRASTRUCTURE

Experience the Engineering Behind Next-Generation Data Centres

The digital world runs on infrastructure you don't see. Behind every connection, cloud service and digital experience is a complex built environment — engineered from the ground up to deliver resilience, reliability and performance.

From structural foundations and building systems to power, cooling and intelligent controls, every element plays a critical role in bringing a data centre to life.

EXPLORE 7 INTEGRATED INFRASTRUCTURE

SERVER INFRASTRUCTURE

The engine of the digital world

ELECTRICAL SYSTEMS

The power that keeps it running

HVAC & COOLING

The systems that keep performance alive

FIRE PROTECTION

The protection behind critical operations

MICRO DATA CENTRE

The future of flexible computing

CONTROL ROOM

The intelligence behind the system

STRUCTURAL SYSTEMS

The framework that supports digital infrastructure

| POWER
| COOLING
| PROTECTION
| INTELLIGENCE

The infrastructure systems that keep the digital world running.

LIVE SHOWCASE

BATTERY ENERGY STORAGE SYSTEM

Discover the Future of Energy Storage

Energy is changing. The question is: how do we make it work when we need it most?

As the world moves towards cleaner and smarter energy solutions, BESS are becoming the link between renewable power and reliable energy use — storing, balancing and delivering energy when it matters.

EXPLORE 6 KEY ENERGY STORAGE SYSTEMS

RENEWABLE ENERGY INTEGRATION

Connecting clean energy with smarter solutions

ENERGY MANAGEMENT SYSTEMS (EMS)

The intelligence behind energy decisions

POWER DISTRIBUTION & SWITCHGEAR

Delivering energy with reliability

BATTERY MODULES & THERMAL MANAGEMENT

Where energy is stored and protected

POWER CONVERSION SYSTEMS (PCS)

Transforming energy when it matters

FIRE PROTECTION & SAFETY SYSTEMS

Protecting the future of energy storage

| CLEAN ENERGY
| SMART STORAGE
| GREATER RESILIENCE

Transforming the way energy is stored, managed and delivered.

LIVE SHOWCASE

HVAC INNOVATION FOR SMART & GREEN BUILDING

The Invisible Intelligence Inside Smart Buildings

The future of buildings is being built where we least expect it.

Hidden beneath our feet, above our heads and within the systems around us, invisible technologies are quietly transforming how we experience the spaces we live and work in.

From Underfloor Air Distribution (UFAD) systems that deliver smarter airflow, to energy efficiency that enhances human comfort and real-time monitoring that helps buildings respond, these innovations are redefining what a truly smart and sustainable building can be.

Buildings are no longer judged only by how they look, but by how they make people feel.

As the industry moves towards a smarter, greener future, these innovations are redefining the spaces around us — creating environments that are healthier, more adaptable and built around the human experience.

UFAD

Smarter Airflow. Comfort from the ground up

ENERGY EFFICIENCY

Designed to reduce HVAC energy consumption by up to 30%

REAL-TIME BUILDING MANAGEMENT SYSTEM (BMS)

Buildings That Think with Real-time intelligence

| AIR

| INTELLIGENCE

The next generation of buildings
designed around people.

POWER TALK

Your Platform for the Industry's Critical Conversations

INDUSTRY

▶ INDUSTRY SERIES

Addressing the major trends, this session provides a focused look at the industry's response to the demand for sustainable infrastructures.

▶ DATA CENTRE INFRASTRUCTURE SERIES

This session offers a comprehensive Data Centre Outlook for the ASEAN region, covering everything from the best practices for data centre infrastructure design.

▶ BATTERY ENERGY STORAGE SYSTEM SERIES

This session talks will cover the energy transition and regulatory framework, standards, and practical applications necessary to build a safe, scalable, and modern energy future.

▶ HVAC INNOVATIONS FOR SMART & GREEN BUILDINGS SERIES

From smart airflow management to future-ready refrigeration, discover the technologies shaping more efficient, resilient and sustainable buildings.

BUSINESS

This session focus on the practical application of advanced systems, particularly in engineering and HVAC&R.

PLAN YOUR VISIT

TRANSPORT & PARKING OPTIONS FOR KLCC

Planning your journey in advance will help you navigate seamlessly between both locations and make the most of your time at the exhibition.

BY RAIL

LRT:

- **KLCC LRT Station - Kelana Jaya Line.** Approx. 5 – 8 mins walk through Suria KLCC pedestrian tunnel.

MRT:

- **Conlay MRT Station - Putrajaya Line.** Approx. 5 – 7 mins walk along Jalan Kia Peng.
- **Persiaran KLCC MRT Station - Putrajaya Line.** Approx. 8 – 15 mins walk along KLCC Park and walkways.

Monorail:

- **Raja Chulan Monorail Station** – Approx. 10 – 15 mins walk along Jalan Perak.

BY BUS:

- Several city bus routes service the KLCC area. Please check local bus schedules for the suitable routes.

BY TAXI OR RIDE-HAILING:

- Taxis and e-hailing services like Grab provide direct access to KLCC.

PARKING:

- KLCC offers extensive on-site parking facilities. Alternatively, you may park at surrounding buildings such as Suria KLCC.

ACCOMMODATION

- Visit the **ENGINEER** and **MARVEX** website for a full list of official hotels.

FLIGHT

ENJOY:

- 20% discount with Malaysia Airlines
- 15% discount with Firefly

BOOKING PERIOD:

16 May – 24 Sept 2026

TRAVEL PERIOD:

15 Sept – 2 Oct 2026
